Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Prosecution of the case is hereby re-opened to correct an error made in the previous action. Correction of the paragraph used for the rejection under 35 U.S.C. § 102 is deemed necessary before the case is forwarded to Appeal.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. §102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless —

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

Claims 19 and 20 are rejected under 35 U.S.C. §102(e) as being anticipated by Bion et al. (USPN 5,862,091). Bion discloses, in Figs. 11 and 12, a circuit comprising: “a first voltage (inverting input of 37, i.e., gate of 40)”; “a second voltage (non-inverting input of 37, i.e., gate of 39)”; “a first insulated gate transistor (40)”; “a second insulated gate transistor (39)”; “a power supply voltage (Vcc, provided by way of transistor 36)”; “a reference voltage (the “internal voltage generated from said power supply” Vcc, provided to the non-inverting input of 37 by way of resistor-connected transistor 38)”; an “operation current supply (39 and 40)”; and “a buffer circuit (44)”, all connected and operating similarly as recited by Applicant. Reference is

Art Unit: 2816

made to Col. 8, lines 45-56 and claim 8 of Bion et al. which discloses that 39 and 40 are different sizes.

Examiner agrees with Applicant's remarks that the rejection was incorrectly provided under 35 U.S.C. § 102(b). This inadvertent oversight is hereby corrected to state the rejection under 35 U.S.C. § 102(e).

Examiner has fully considered Applicant's remaining remarks for the above rejection and has not found them to be persuasive. All of Applicant's arguments deal with comparison of the "power supply voltage" and the "reference voltage", however, the claim only recites the comparisons as only being between the "first voltage" and the "second voltage". Clearly, the reference to Bion et al. provides the claimed operation of comparison between the "first voltage" and the "second voltage".

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
